

ANTI-AGING DROPS

PROFESSIONALS

MSRP \$18.00

PRO \$15.00

FORMULATION OVERVIEW

This formula aids in both the prevention and reduction of the skins aging process by tightening wrinkles on the skin, giving a youthful, refreshing look.

This additive provides a temporary tightening effect, it will not last the duration of the spray tan.

HOW TO USE: Add two full droppers for every ounce of solution prior to application.

PRO-TIPS: Clients that prefer an alcohol-based solution but suffer from dry skin will benefit when adding Anti-Aging drops to the solution to act as a moisture lock.

Recommend the client to use Sjolie Tan Extend to improve longevity of the Anti-Aging Benefits.

HIGHLIGHTED INGREDIENTS

PISUM SATIVUM

An agent used for conditioning, moisturizing, smoothing and aids in the prevention of fine line and wrinkles.

NIACINAMIDE

Also known as Vitamin B3, is shown to increase the skins production of ceramides (natural emollients and skin protectants), acts as an anti-inflammatory, and improves fine lines and wrinkles.
