

CBD RESTORE CONCENTRATE

PROFESSIONALS

MSRP \$50.00

PRO \$39.99

FORMULATION OVERVIEW

Common skin conditions are known to affect a spray tan negatively; fight the odds and achieve a quality spray tan by utilizing the newest skin soother; Sjolie Restore CBD Concentrate.

HOW TO USE: Add one dropper full for every 2 oz. of solution. Increase dosage by one dropper full at a time for severe conditions or pain management.

CBD Restore Concentrate is for topical use only, do not ingest.

Store CBD Restore Concentrate at room temperature, away from direct sunlight. Refrigeration is not required.

PRO-TIPS: Add CBD Concentrate to deionized water instead of spray tan solution to cater to clients who do not necessarily want a spray tan but would like pain relief and the other amazing benefits of CBD.

HIGHLIGHTED INGREDIENTS

CBD

When topically applied, CBD will penetrate through the pores and epidermis, absorb into the body to react with its natural cannabinoid receptors resulting in balanced skin and pain management.

ALOE VERA

Comes from a versatile plant that has been found to reverse degenerative skin changes by stimulating collagen and elastin synthesis. Acts as a biological vehicle to aid penetration and absorption of other bio-active ingredients into the skin.
