

# EXFOLIATING BODY SCRUB

---

## FORMULATION OVERVIEW

Sjolie Exfoliating Body Wash is designed to give skin a silky, moisturizing finish to extend the health and longevity of the spray tan. The exfoliator preps skin by gently removing dead cells to create a smooth canvas for an even sunless tan. Using a gentle body scrub regularly will maximize removal of dead skin cells at the superficial level, allowing newer, healthier cells to absorb color and retain moisture. The Exfoliating Body Wash features a tropical pineapple scent.

**HOW TO USE:** Use weekly in bath or shower for a lightweight exfoliation. Apply over the body with moistened hands, puff, or washcloth. Gently massage into a lather and rinse off.
