

# GOLDEN SHIMMER DROPS

---

## PROFESSIONALS

MSRP \$12.00

PRO \$10.00

## FORMULATION OVERVIEW

The Shimmer additives provide a glowing effect to the skin. The Golden Shimmer Drops will add a hint of color and shimmer to your sunless spray tan.

**HOW TO USE:** Add two full droppers of shimmer to every 1 ounce of spray tan solution or distilled water for a shimmer only service. Add additional droppers for increased shimmer benefits.

Shimmers are a temporary additive and will not last the duration of the spray tan.

Golden Shimmer is beautiful on all skin types, however it is more prevalent on darker skin tones.

**PRO-TIPS:** Add Golden Shimmer to your client's favorite quality moisturizer (such as Sjolie Tan Extend), to prolong the glowing effects even after spray tan has faded. Or add golden shimmer drops to your makeup and use as a liquid highlighter.

## HIGHLIGHTED INGREDIENTS

### DEIONIZED WATER

Ultra purified water through the processes of deionization. Mineral ions such as sodium, calcium, iron, copper, chloride and sulfate have been removed.

### ETHOXDIGLYCOL

A solvent and viscosity decreasing agent (agent used to thin a product and allow it to flow more easily through the skin layers) used to aid in product penetration.
