

ICON RESERVE: TIER 2

OLIVE UNDERTONES | ALCOHOL BASED | 8-HOUR DEVELOPMENT

FORMULATION OVERVIEW

Sjolie Icon Reserve will cater to those clients who do not like the benefits the Aloe Vera based solutions provide them. Because of the Alcohol content, this solution will leave the client feeling dry immediately after application while providing them with the same gorgeous golden glow the Aloe Blend delivers. Tier Two contains 12% DHA, ideal for dark complexions and excellent for a summertime color.

HOW TO USE: Apply pH Balancing Spray and Barrier Cream. For a full-body tan, use 2 oz. of solution per client. Increase as needed. Apply 1-coat of solution, and do not oversaturate. Increase DHA % to darken tan results, do not layer.

PRO-TIPS: If your client is still feeling slightly tacky, apply baby powder following their spray tan session. Using a pad of some sort, apply powder to the underarms, inner wrists, and behind the knees.

HIGHLIGHTED INGREDIENTS

CETEARYL ALCOHOL

Derived from coconut oil. Used as a thickener, emollient and emulsifier.

ETHOXYDIGLYCOL

A solvent and viscosity decreasing agent (agent used to thin a product and allow it to flow more easily through the skin layers) used to aid in product penetration.

RETINYL PALMITATE (VITAMIN A)

An anti-oxidant that stimulates skin rejuvenation and is derived from retinol.
