

ORIGINAL NO.6

OLIVE UNDERTONES | ALOE VERA BASED | 8-HOUR DEVELOPMENT

FORMULATION OVERVIEW

This solution is most commonly used for clients with naturally fair skin. This solution is ideal for use during the winter months on clients looking to achieve a "winter glow". The formula's Aloe Vera base provides the ultimate moisture lock for added tan longevity, tans can last 7-12 days with proper at-home maintenance.

HOW TO USE: Apply pH Balancing Spray and Barrier Cream. For a full-body tan, use 2 oz. of solution per client. Increase as needed. Apply 1-coat of solution, and do not oversaturate. Increase DHA % to darken tan results, do not layer.

PRO-TIPS: The logic behind the winter glow is that this solution provides less contrast to the client's natural winter skin coloring which tends to be lighter.

MSRP \$35.00

PRO \$28.00

COST PER USE \$1.75

SUITABLE SKIN TYPES

SKIN TYPE 1

- Very fair complexion
- Blonde or red hair
- Light colored eyes
- Freckles are common
- Always burns, never tans

SKIN TYPE 2

- Fair complexion
 - Light eyes
 - Light hair
- Burns easily, tans with difficulty

HIGHLIGHTED INGREDIENTS

DEIONIZED WATER

Ultra purified water through the process of deionization. Mineral ions such as sodium, calcium, iron, copper, chloride and sulfate have been removed.

CETEARYL ALCOHOL

This alcohol is non-toxic and safe for the skin. It is considered fatty alcohol derived from coconut oil; this is not a derivative of Petro. Used as an emulsifier, which binds oil & water together, this alcohol acts as a texture enhancer & promotes the solution's quick-dry benefits. It is non-drying & non-irritating to the skin like other alcohols.

GLYCERYL STEARATE

Derived from vegetable fatty acids helps to sooth and soften the skin. Also, used as an emulsifier.
