

# ORIGINAL NO.9 CLEAR

OLIVE UNDERTONES | ALOE VERA BASED | 8-HOUR DEVELOPMENT

## FORMULATION OVERVIEW

Solution No. 9 Clear is excellent for any client or technician who prefers no bronzer in spray tan formula. You will not receive instant color with this solution, but you will develop a natural looking golden tone. The color payoff is identical to our Solution 9 with bronzer. Solution No. 9 Clear also has a light Green Tea scent, unlike any other SJOLIE solution which do not contain an added fragrance. The formula's Aloe Vera base provides the ultimate moisture lock for added tan longevity, tans can last 7-12 days with proper at-home maintenance.

**HOW TO USE:** Apply pH Balancing Spray and Barrier Cream. For a full-body tan, use 2 oz. of solution per client. Increase as needed. Apply 1-coat of solution, and do not oversaturate. Increase DHA % to darken tan results, do not layer.

**PRO-TIPS:** If you're unsure what solution will best compliment your client's complexion, No.9 is always a safe go-to solution. Try a cocktail of 50% Original No.9 and 50% LUXE No.9 for added tone and quick-dry benefits.

## PROFESSIONALS

MSRP \$35.00

PRO \$28.00

COST PER USE \$1.75

## SUITABLE SKIN TYPES

- Fair complexion
- Light eyes & Hair color
- Burns easily, tans with difficulty

### SKIN TYPE 3

Most common skin type

- Fair to Medium complexion
- Eye and hair color vary
- Sometimes burns, gradually tans

## HIGHLIGHTED INGREDIENTS

### GLYCERIN

A moisturizing compound used to prevent dehydration of the skin and aid in retaining moisturizer. Glycerin uses moisture from the air to penetrate the skin for natural hydration. Glycerin also acts as a skin soother, so its hydrating properties will not negatively affect acne or oily prone skin types.

### ALOE BARBADENSIS LEAF EXTRACT

Comes from a versatile plant that has been found to reverse degenerative skin changes by stimulating collagen and elastin synthesis. Acts as a biological vehicle to aid penetration and absorption of other bio-active ingredients into the skin.

### RETINYL PALMITATE (VITAMIN A)

An antioxidant that stimulates skin rejuvenation and is derived from retinol.
