

All about Additives

Get creative with our sunless solution additives. Your spray tan symbolizes a healthy and natural lifestyle choice for you and your clients and can be a great way to boost their sunless experience.

Sjolie Sunless solution additives like DHA Booster drops can help to intensify the darkness of your tan, or Opalescent drops for a little touch of shimmer. Discover, blend, and enjoy your own unique balance of our amazing Sjolie Sunless additives to enhance your client's spray tan.

Shimmers

When our shimmer is added to the spray solution, it produces a "glowing" effect. These drops are a wonderful addition to your beautiful custom spray tan. Available in Opalescent and Golden tones.

Firming

This cutting-edge formula is designed to tone and tighten the skin. This spray tanning additive will attack cellulite where applied. Caffeine also helps provide instant skin tightening properties.

Anti-Aging

This revolutionary formula aids in both the prevention and reduction of the skin's aging process. This solution additive will tighten wrinkles on the skin, giving a beautiful, refreshing, younger look.

Scents

Unique scent blends will add a spa like feel to any sunless service. Simply add one drop at a time to create the perfect customized scent. Let your client choose between, energizing Orange ginger, luscious Pineapple or select Limited Edition scents.

DHA Booster

Our 50% DHA drops are designed to give and extra boost of DHA to the solutions. Customize any solution, any time, to achieve the perfect color for every client. Many salons and mobile technicians will have DHA drops on-hand to achieve any
